FORGING NEW PATHWAYS IN GLOBAL AVIATION

開拓全球航空新路向

One of the most important global aviation events, Routes World, was hosted by Hong Kong International Airport (HKIA)

from 24 to 26 September, marking the first time Hong Kong has hosted the annual gathering.

Now in its 30th edition, Routes World welcomed about 2,500 industry leaders from over 95 countries, who were introduced to the latest developments at HKIA and elsewhere in Hong Kong. It featured exhibitions, forums and networking events, with an emphasis on new airline collaborations, and strategic discussions about the future of air travel amid evolving consumer behaviour, environmental concerns and technological change.

Airport Authority Hong Kong (AAHK) Chairman Fred Lam addressed the opening ceremony, emphasising that the event provided a valuable opportunity to explore the prospects arising from Hong Kong's infrastructural development, regional connectivity and innovation.

入境事務處
Immigration Department

IMMIGRATION CLEARANCE FACES THE FUTURE

出入境通關邁向新里程

Arrival immigration clearance at Hong Kong International Airport (HKIA) just became significantly easier for Hong Kong residents, with the introduction of the "Face Easy e-Channel" service by the Immigration Department on 30 September.

With the new service, eligible residents can complete arrival clearance without the need of any documents presentation or prior registration. They simply face the cameras at the e-Channel, which verify their identities using

facial recognition technology.

The entire immigration process at the airport has become remarkably efficient, and now can be completed 12.5% faster. Currently, the airport has 26 traditional e-Channel lanes, 10 of which have been upgraded to "Face Easy e-Channel". Starting from the first quarter of 2026, another 26 "Face Easy e-Channels" will be added by phases, making travel through HKIA more seamless than ever.

入境事務處於9月30日推出「容易飛 e-道」，香港居民在香港國際機場可享更便捷的自助入境檢查服務。

透過這項新服務，合資格的居民無需出示任何證件或預先登記，只需在通道鏡頭前展示容貌，系統會透過容貌辨識技術核實身分，便可完成辦理入境手續。

機場的整個入境手續效率得到顯著提升，現時辦理入境手續的速度較以往快12.5%。目前，機場共有26條傳統入境e-道，其中十條已升級為「容易飛 e-道」。於2026年首季起，將會分階段增設26條「容易飛 e-道」，屆時經香港國際機場出行將更為便利。

一眾嘉賓出席慶祝香港商用航空中心新客運大樓正式開幕的活動。

Hong Kong Business Aviation Centre (HKBAC) new terminal at Hong Kong International Airport (HKIA) marked a major milestone, signifying the completing of phase one of the company's in-situ expansion project.

The world-class new facility redefines private and business air travel with its emphasis on efficient, luxurious travel. Highlights include upgraded one-stop customs, immigration and quarantine (CIQ) facilities, VVIP suites and the striking 26-metre Sky Canopy – an architectural centrepiece that sweeps down over the apron, and a first for Asia. In another landmark achievement, it is also the first airport lounge project to receive Muslim-

friendly certification from the globally recognised halal travel authority CrescentRating.

Speaking at the launch event, Secretary for Transport and Logistics Mable Chan pointed out that the launch plays perfectly into the growth in Hong Kong's aviation industry following the introduction of the Three-runway System in November 2024. It will meet expanding demand for business aviation, she said, by doubling HKBAC's handling capacity.

Airport Authority Hong Kong (AAHK) Chairman Fred Lam reaffirmed AAHK's commitment to supporting HKBAC. Both organisations will continue to work together to build HKIA's

status as the leading regional business aviation hub, he said.

HKBAC has also launched "Premier Direct", a pioneering service that offers boarding or disembarkation in total privacy within three minutes, including super-efficient CIQ clearance.

The company has begun the second phase of the expansion, which focuses on refurbishing the existing terminal, creating diversified spaces for the growing trends of family and pet travel and developing office space for partners. The project is expected to be completed in the first quarter of 2026.

4 STAFF CONNECT OVER CONVERSATIONS AT MINGLING SESSION

促進交流 凝聚力量

About 100 members of staff from the Airport Management Division joined a relaxing mingling session with senior management at AAHK on 9 September.

Participants met with AAHK CEO Vivian Cheung and other senior management members to share their experiences and perspectives over light refreshments. This session helped foster mutual understanding and strengthen internal connections.

The event formed part of an ongoing series of divisional engagement sessions aimed at enhancing communication and fostering openness. Additional sessions are planned for the future.

於9月9日共有約100名來自機管局機場運行處的員工，參加交流活動，與高級管理層互動。

參加者一邊享用茶點，一邊與機管局行政總裁張李佳蕙及其他高級管理層人員分享工作經驗及看法。此活動有助雙方加深了解，增加內部聯繫。

是項活動為機管局其中一項部門間交流計劃，旨在加強溝通、促進開放的企業文化，日後將舉辦更多同類活動。

INITIATIVE TO BOOST TRANSHIPMENT OF FRESH FOOD

新措施加快轉口運送鮮活產品

HKIA and the C&ED held the launch ceremony of the Air-Land Fresh Lane. AAHK CEO Vivian Cheung (third from left) engaged in conversation with C&ED Commissioner Chan Tsz-tat (second from right).

香港國際機場與香港海關舉行「空陸鮮活產品專屬快線」開通儀式。機管局行政總裁張李佳蕙（左三）與海關關長陳子達（右二）交流。

The transhipment of fresh food items from around the world to the Greater Bay Area (GBA) through Hong Kong International Airport (HKIA) has taken a major step forward with the full launch of the Air-Land Fresh Lane.

The initiative, jointly launched by the Guangdong and Hong Kong governments in collaboration with HKIA, aims to streamline the clearance of fresh food transhipment (fruits, chilled and live seafood), enabling customs clearance to be completed in Zhuhai within three hours after arrival at HKIA, via the Hong Kong-Zhuhai-Macao Bridge (HZMB). It facilitates the transhipment of overseas fresh products to the Chinese Mainland with a dedicated channel; it has come into full operation following a trial period since April.

At the opening ceremony, Airport Authority Hong Kong (AAHK) CEO Vivian Cheung remarked that the Air-Land Fresh Lane expands the catchment area of HKIA and helps Hong Kong's trade and logistics industries in seizing new business opportunities in the GBA and beyond, further strengthening HKIA's leading position in the air cargo industry.

Customs and Excise Commissioner Chan Tsz-tat pointed out that its successful implementation was

attributed to the concerted efforts of the governments of Guangdong and Hong Kong. Overcoming difficulties, relevant regulations were aligned between the two sides and clearance procedures simplified. This included securing support from the General Administration of Customs of the People's Republic of China to set up a designated inspection site at the HZMB Zhuhai Port with temperature-controlled facilities, adopting advanced technology to streamline the clearance of fresh food transhipment, and gaining the support from the Food and Environmental Hygiene Department to exempt the air-to-land food transhipment under this scheme from the food importer registration requirement.

HKIA's leading position in cargo was underlined by a trio of recent prestigious awards from leading logistics publications. HKIA was named "Airport of the Year – Major Cargo Hub" at the World Air Cargo Awards 2025. It also scooped both "Best Global Airport", for the 10th consecutive year, and "Best Airport – Asia (Over 1m tonnes)" at the 2025 Asian Freight, Logistics and Supply Chain (AFLAS) Awards.

隨著「空陸鮮活產品專屬快線」全面開通，標誌着來自全球的鮮活產品經香港國際機場轉運到粵港澳大灣區的

流程邁進重要一步。

新措施由粵港兩地政府聯同香港國際機場合作推出，讓水果、鮮活及冰鮮水產品可於抵達香港國際機場後，經港珠澳大橋運送至大灣區，產品最快可在航班抵港後三小時內於珠海完成清關，簡化了手續。新措施通過專用通道促進海外鮮活食品轉運至中國內地，自今年4月試運行以來，現已全面投入運營。

在開通儀式上，香港機場管理局行政總裁張李佳蕙表示，「空陸鮮活產品專屬快線」擴闊了香港國際機場貨運業務的腹地，協助本地貿易及物流業把握大灣區以至其他地區的新機遇，進一步鞏固香港國際機場在航空貨運的領先地位。

海關關長陳子達指出，鮮活快線成功落實有賴粵港兩地政府合作，拆牆鬆綁，把兩地相關法規銜接，簡化清關程序，包括取得中華人民共和國海關總署支持，於港珠澳大橋珠海公路口岸興建配備溫控設施的指定監管場地，兩地海關採用先進科技簡化鮮活食品的中轉清關安排，並獲得食物環境衛生署支持，豁免該計劃下的空陸聯運轉運貨物食物進口商登記要求。

香港國際機場的貨運表現卓越，最近獲領先物流刊物頒發三項殊榮。在「2025年世界航空貨運大獎」中，香港國際機場獲得「年度最佳機場—重要貨運樞紐」殊榮。此外，在2025年度「亞洲貨運、物流及供應鏈獎」評選中，連續10年獲選為「最佳全球機場」，同時榮膺「亞洲最佳機場（貨運量逾100萬公噸）」。

Casper says she enjoys working in a place where so many people start joyful journeys, adding that nothing

gives her more satisfaction than helping travellers by solving their problems. Her willingness to go the extra mile for customers has been demonstrated by numerous incidents.

Casper recalled a memorable case involving an Australian woman who missed her flight and had no means to pay for a new one. Casper readily went out of her way to help, spending seven hours, from 10 a.m. to 5 p.m., calling and sending emails to banks and travel agencies in Australia and New Zealand. She eventually managed to arrange the payment transfer and secure a new ticket for the traveller. It was a challenging situation, as the traveller was visibly anxious and overwhelmed by the reality of missing her flight. However,

Casper noted that this was exactly the sort of challenge that she derives the most satisfaction.

章夢婷 (Casper) 表示，她非常喜歡在接觸旅客的地方工作，每次成功幫旅客解決問題，都令她享有極大滿足感，她經常多走一步，積極為旅客提供最佳服務。

Casper回憶道曾有一個案令她印象難忘，事緣一名澳洲旅客錯過了航班但無其他方法再買一張機票。Casper竭盡所能為其提供協助，從上午10時至下午5時，花近七小時替她致電及以電郵聯絡澳洲及新西蘭銀行和旅行社，最終成功安排到匯款並為她購買新機票。該名旅客因錯過航班而感到焦慮及不知所措，令到這情況更具挑戰性，但Casper表示，成功克服工作中面對的不同挑戰能讓她獲最大的滿足感。
